

Springboard certifies that

Virgil Neyroud

has successfully completed

Data Science Career Track

A 500+ hour online course that covers the Python data science stack, SQL, data wrangling, data visualization and storytelling, business analytics, and machine learning. Virgil participated in weekly live 1:1 mentoring sessions with an experienced data scientist and successfully completed two final projects, "Automated Trading with Cloud and Data Science" and "Pharmaceutical Catalyst Analysis," that were reviewed by an independent industry expert.

Mini-Projects Completed

- Guided Capstone
- Two end-to-end Capstones
- Python Data Science Stack Project
- SQL queries Project
- Frequentist Inference Project
- Linear and Logistic Regression Projects
- Machine Learning Projects
- Structured Thinking Project
- Tableau for Customer Segmentation Project

A handwritten signature in black ink, reading "Jonathan Heyne".

Jonathan Heyne

General Manager, Data Science Programs

Topics Covered

- Problem Identification
- Python Programming
- Data Science Method
- SQL & Database Management
- Data Wrangling
- Statistics for Exploratory Data Analysis
- Machine Learning
- Data Storytelling
- Structured Thinking
- Business Analytics
- Advanced Data Visualization

A handwritten signature in black ink, reading "John Sukup".

John Sukup
